PRODUCTS
VCOM 7.0

COMPUTER FOR MOBILE APPLICATIONS

Software available for all agricultural uses. We also develop proprietary applications according to our customers' needs and requirements.

GENERAL FEATURES

Our computers are specially designed to work in harsh agricultural environments, and are simple in design and user–friendly, two features of all of our products. It is also used in transportation, industry and other special mobile applications.

→ Windows CE 6.0 operating system

→ IP64 sturdy and compact design

→ Resistant 7 '' touch screen

→ ARM 600 MHz processor

→ CAN BUS connection

TOUCH SCREEN

PROTECTION IP64

PROTECTION

It is made of engineering abs plastic, which is highly impact–resisting; moreover, it has rubber protection around the edges, which provides better protection against knocks and falls. It has an IP64 rating, thus offering full protection against water, dust and shock.

It has been designed and fitted to comply with the highest requirements of complex industrial environments.
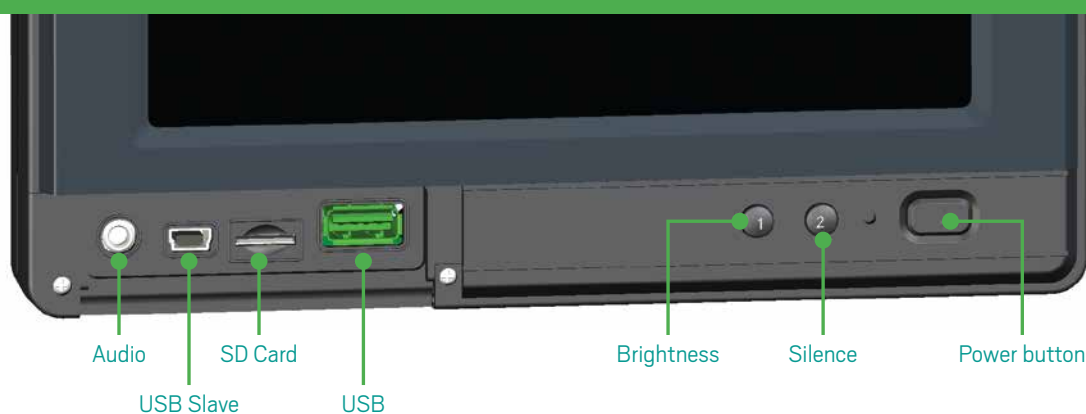

DIMENSIONS

35 mm | 198 mm

146 mm

FEATURES

CPU	TI OMAP3530, 600MHz
Memory	Flash 256MB / SDRAM 128MB
External memory	SD card, USB
Operating system	WinCE 6.0
Core	ARM Cortex A8
Screen	7" LED Backlit
Power supply	DC 9–24V
Resolution	800×480
Brightness	450cd/m²
Contrast	500:1
Power consumption	≤9W
Working temperature	–20ºC –60ºC
Storage Temperature	–30ºC –70ºC
Dimensions	198 × 146 × 35 (mm)
Weight	740 g
Interface	CAN Bus x 2
	RS232 x 1
Connector	AMP CPC 16 pin
Options	GPRS, wifi, BlueTooth
